

Insurance Menu

Quote more groups.
Save more time.

Filling out paper forms is time-consuming. Now there's a better way. Delta Dental of Iowa has partnered with InsuranceMenu, an online portal that streamlines the entire process of selling dental and vision coverage — from quote to sale to enrollment.

It's fast.

Just enter employer information and submit. You can email or print plan options and rate estimates right from the portal. With the time you save, you'll have the chance to reach out to more groups.

It's accurate.

Missing details and illegible handwriting on paper forms can slow down processing time. Online entry helps reduce errors from the start.

It's convenient.

Now you can compare and quote multiple dental and vision products with one tool. It also keeps everything from applications to renewals organized in a central place.

It's yours. We will work with you to personalize the portal with your logo and company information and determine how it best fits into your current process.
